

# ArcturusUAV SensorSAFE

## Failsafe Sensor Retract System

The **SensorSAFE** failsafe retract system from **ArcturusUAV** is designed to provide a superior retracting platform for the ultimate in sensor rigidity and reliability.

**SensorSAFE** will retract payloads up to 30 lbs. and 9" diameter. **SensorSAFE** provides peace of mind by automatically retracting the sensor in the event of a power bus failure, keeping valuable sensors out of harm's way. While stowed, sensor protection is further enhanced by the carbon fiber doors.

### ArcturusUAV

### SensorSAFE Specifications

Material	Aluminum/Carbon Fiber
Weight	9.5 lb./4.3 kg
L x W x H	21 x 10 x 11in
Max Sensor Wt.	30 lb./13.60 kg
Max Sensor Dia.	9"/22.86 cm
Power Required	6 VDC & 12 VDC

**SensorSAFE** is designed for use with **ArcturusUAV** T-20 UAS payload pallet system. It is also compatible with other UAS and manned aircraft. Custom configurations are available.
