

# ARCTURUS UAV<sup>®</sup> T-20

**Rugged and reliable**  
**Engineered for austere conditions**  
**Large payload capacity**  
**High persistence**  
**Modular internal payload design**  
**Wing hard points for external payloads**

## SPECIFICATIONS:

Airframe	Monocoque composite
Wing Span	17' 4"
Length	9' 5"
Engine	190cc 4 Stroke
Fuel	MOGAS
Max Weight	185 lbs.
Max Speed	90 kts
Cruise Speed	45-55 kts
Endurance	16 hours with 35 lb. payload
Payload Capacity	75 lbs
Main Payload Bay	4,100+ cubic inches
Launcher	Pneumatic Catapult (Portable)
Maximum Ceiling	15,000'+ MSL
Recovery	Belly, Net, Austere Conditions
Full autonomous capability, launch to land	
SatCom Compatible	

Portable Pneumatic Launcher
